Landscape architecture

EXPERIENCE

01.2020 - present

Pharmacy chain web application

Full Stack RoR, JS developer

The key point of this application is to provide the customer with an assortment of drugs and beauty products. It is a web application integrated with a 1C system that is implemented on all pharmacies in the chain. Thus, the customer can check the drug's availability in the chosen pharmacy.

08.2019 - 12.2019

E-commerce platform for retail shops

Full Stack RoR, JS developer

The whole application is an e-commerce platform that works for different shops. The main aim of this project is to develop the platform for large retail shops. The client offers those retail shops to have the possibility to be represented online and the possibility to sell goods online.

01.2018 - 07.2019

CRM Tool (Xmetryx, Trustmetryx)

Full Stack RoR, JS (React.js) developer

This web-application offers software tools, workshops, and resources for crafting extraordinary teams, trusting relationships that energize and inspire people to peak performance.

09.2017 - 09.2018

MIS - medical information system

Ruby on Rails developer

Development of medical system that will be implemented in the hospital. Implementing new features. Assistance in the introduction of the project.
